Career Objective

Backend-focused Full-Stack Developer with professional experience in developing REST APIs, backend services, databases, and distributed systems. Seeking a Backend Developer, Full-Stack Developer, or Software Engineer position to contribute my technical skills while continuing to develop my expertise in backend architecture and system design.

Personal Data

Gender:	Female
Date of birth:	24/01/2006
Marital status:	Single
Nationality:	<i>Cambodian</i>
Place of birth:	Takeo Province, Cambodia.

Education background

- Current Level of Education (2023 – Present): **SETEC Institute – Bachelor of Management Information Systems.**
 - Completed High School 2019 – 2022: **Sok An Doung Khpous Bourei Cholsar**
- Other Trainings:**
- **Full Stack Web Development Scholarship (2025):** ISTAD - Full-stack development training covering React, Next.js, Java, PostgreSQL, Spring, Docker, Nginx, and Git.
 - **Web Development Scholarship (2025):** ISTAD - Web development, responsive design, database integration, JavaScript, Java, and Git.
 - **Web Design Scholarship (2024):** ISTAD - HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Figma, and UI/UX design.
 - **C/C++ Programming (2024):** ANT - Programming fundamentals, algorithms, data structures, and object-oriented programming.
 - **English Language Program (2023-2025):** PCU - English communication, reading, writing, and speaking skills.
 - **General Korean Program (2023-2024):** CKCC - Basic Korean communication, reading, writing, listening, and speaking skills.

Special Skill:

- **Backend Programming & API Development:** Proficient in developing REST APIs and backend services using TypeScript, Node.js, and Express.js.
- **Database & Data Management:** Experienced in working with PostgreSQL, MySQL, MongoDB, and Redis for database management, data processing, and caching.
- **Distributed Systems & Messaging:** Experienced with RabbitMQ, asynchronous processing, microservices, and distributed service communication.

- **DevOps & Development Tools:** Familiar with Docker, Nginx, Git, CI/CD, Linux, and deployment environments for application development and service management.
- **Problem Solving & Teamwork:** Strong problem-solving, debugging, communication, and collaboration skills developed through professional software development and team-based projects.

Work Experiences

- **Junior Backend Developer / Everlast Information & Apps Dev Co., Ltd. — 2025 – Present**
 - Design, develop, and maintain **REST APIs and backend services** using TypeScript, Node.js, and Express.js.
 - Contribute to **distributed systems, omnichannel messaging, and high-concurrency workflows** using microservices and RabbitMQ.
 - Work with **PostgreSQL, MongoDB, MySQL, and Redis** for database management, transactions, caching, and data workflows.
 - Integrate **third-party APIs** and work with Docker, Nginx, Portainer, CI/CD, and Linux-based environments.
 - Participate in **debugging, testing, performance optimization, security improvements, and production troubleshooting** while collaborating with development and QA teams.
- **Freelance Web Designer & Full-Stack Developer / Self-Employed 2024 – Present**
 - Develop responsive web applications using **React.js, Tailwind CSS, and modern web technologies**.
 - Design user interfaces and responsive layouts based on project requirements.
 - Implement frontend functionality and integrate application components with a focus on usability and maintainable code.
- **Practical Training & Academic Projects / ISTAD Scholarship & SETEC Institute 2023 – Present**
 - Built academic and practical projects using **Java, C#, JavaScript, React, Next.js, Spring, PostgreSQL, HTML, CSS, Bootstrap, and Tailwind CSS**.
 - Applied **database design, API development, system analysis, responsive UI development, and version control** through hands-on projects.
 - Collaborated with project teams and strengthened skills in **problem solving, debugging, and software development**.

Languages	Speaking	Writing	Reading
● Khmer	Fluent	Fluent	Fluent
● English	Intermediate	Intermediate	Intermediate
● Korean	Basic	Basic	Basic

Special Interest

- **Technology & Software Development:** Interested in backend architecture, software development, DevOps practices, databases, and emerging technologies.
- **Technology & Strategy:** Interested in technology trends, logical problem-solving, strategy games, and continuous learning.
